

## Agenda Point 5: Vote on the offsetting of the annual results for 2022 and 2023

The Management Board proposes to offset the annual results for 2022 and 2023 and to increase the voluntary reserve.

The VfS had a negative result of EUR 11,394.30 in 2022 and a surplus of EUR 16,919.42 in 2023. After offsetting, the surplus of EUR 5,525.12 can be transferred to the voluntary reserve up to the amount of 10 per cent of the income in the non-material area and other tax-neutral income and donations. 10% of this income is EUR 27,607.07. The surplus to be transferred to the voluntary reserve should be 5,525.12 Euros.

The voluntary reserve currently amounts to 97,232.07 Euros (as of 1 January 2023).
